

STEP 3 : Access API.

Once a valid JWT token is generated, you are ready to access our API. The access token must be passed in the request header. Here is an example:

```
curl -X GET "https://api.coinscious.org/tokens" -H "accept: application/json" -H
"Authorization: Bearer

AUTHORIZATION

Various access is given based on the subscription level. The mapping between the subscription and Access Control List (ACL) is as follows:

SUBSCRIPTION	API
Exchange API	Exchange Token Pair List
	Exchange List
	Token List
	OHLCV Data
	VWAP Data
	Exchange VWAP Data
Interval Premium Subscription	<p>The "Exchange API" subscription has two options:</p> <ul style="list-style-type: none"> 5-minute intervals or 1-minute intervals. <p>By default, you will receive data at 5-minute intervals for the above. To receive data at 1-minute intervals, an Interval Premium Subscription is required.</p>
Trade History Live Stream	Trade History Live Stream
Order Book Live Stream	Order Book Live Stream

RATE LIMIT

The rate limits for the trial account are as follows:

- maximum 10 requests in 10 seconds for HTTP API, and
- maximum 10 connections and 10 subscriptions in the Live Stream channel per day.

If you need to increase your rate limit, please contact us at: sales@coinscious.io
